

## 在 Mac 上使用 AeroDrive Super One Click Manager v.286D 的設置

### 1. Download Super One Click v2.86D For Mac

[http://www.aerocreative.com/SuperOneClick\\_2.86D.pkg](http://www.aerocreative.com/SuperOneClick_2.86D.pkg)

### 2. Configurate Mac to allow installation

Open the Terminal app from the /Applications/Utilities/ folder and then enter the following command :

```
sudo spctl --master-disable
```

Hit return and authenticate with an admin password and now you should be able to install Super One Click. After installation, please reboot and go to 3.

### 3. Download and install Program Update

[http://www.aerocreative.com/AeroDrive\\_Super\\_Update\\_2022\\_12\\_01.pkg](http://www.aerocreative.com/AeroDrive_Super_Update_2022_12_01.pkg)
